DETAILED ACTION

Response to Amendment

1. This office action is in response to the amendment submitted on 16 October 2006. Claims 1-13 and 15-16 are currently pending. Based on applicant's submission of a declaration under 37 CFR 1.132 the art rejection is overcome.

Claim Objections

2. Claim 10 is objected to because of the following informalities: In claim 10, line 6, the term "asubsequently" should be -- a subsequently --. The claim does not end in a period. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 10-12 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 10 the use of the term "desired" renders the claim vague and indefinite. In lines 6-7 the phrase "the product" lacks proper antecedent basis. The phrase "the reaction mixture" lacks proper antecedent basis. It is unclear as to what is meant by "in the presence of secondary air". Does this mean that "primary air" is present? The phrase "the gaseous reaction products" lacks proper antecedent basis. The phrase "the

Art Unit: 1755

ratio of primary air to secondary air...core hydrogen....titanium dioxide precursor to secondary air is greater than 0.5" lacks proper antecedent basis as nowhere in the claim is primary air, core hydrogen, or a titanium dioxide precursor previously referred to.

Allowable Subject Matter

5. Claims 1-9, 13 and 16 are allowed.
6. Claims 10-12 and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1755

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
